EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering
SR University, Hanamkonda, Telangana CGPA: 7.5 / 10

2023 – 2027

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend & APIs: Flask, Spring Boot, RESTful APIs, Node.js

Languages: Java, Python, SQL

Databases: MySQL, Mango DB

Tools: Git, GitHub, VS Code, Jupyter Notebook

AI / ML: TensorFlow, Keras, Scikit-learn, CNN, GANs

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Java Full Stack Developer Intern (Certificate)

Jan 2026 – Mar 2026

EduSkills (Remote) — Java, Spring Boot, React.js, MySQL, REST APIs

- Developed and deployed **3+ full-stack web applications** using Java, Spring Boot, React.js, MySQL, and RESTful APIs following Agile methodology.
- Implemented backend services, CRUD operations, API integration, and optimized SQL queries, improving application performance by **40%**.
- Built responsive and reusable UI components using React.js and used Git/GitHub for version control, debugging, and collaborative development.

AI/ML Intern (Certificate)

Jul 2024 – Sep 2024

EduSkills (Remote) — Python, TensorFlow, Flask, Scikit-learn

- Built and trained machine learning and deep learning models using Python, TensorFlow, Keras, and Scikit-learn for predictive analytics tasks.
- Applied feature engineering, data preprocessing, and hyperparameter tuning, improving model accuracy by **20%** and reducing prediction error by **15%**.
- Developed Flask-based AI/ML web applications with real-time prediction, REST API integration, and model deployment functionalities.

PROJECTS

Movie World (Live Link) (Project Code)

May 2026

MERN Stack · React.js · Node.js · Express.js · MongoDB · REST APIs

- Developed and deployed a full-stack movie streaming and discovery platform using React.js, Node.js, Express.js, and MongoDB with responsive UI design.
- Built RESTful APIs for dynamic movie data handling, routing, search functionality, and seamless frontend-backend integration.
- Integrated third-party movie APIs to fetch real-time movie details, ratings, posters, trailers, and trending content for enhanced user experience.

Bone Fracture Detection System (Live Link) (Project Code)

Dec 2025

Python · TensorFlow · CNN · Flask · OpenCV · Deep Learning

- Developed a **CNN-based deep learning web application** using Python, TensorFlow, Flask, and OpenCV for real-time bone fracture detection from X-ray images.
- Trained and evaluated the model on **5,000+ medical images**, achieving **92% classification accuracy** through image preprocessing and data augmentation.
- Integrated Flask APIs and responsive web interfaces for prediction, improving detection performance and reducing false positives by **18%**.

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Azure AI Fundamentals (AI-900) (Certificate)
- 3rd Place — Project Expo 2023 (Certificate)
- UDBHAVA X'26 — 12-Hour Multi-Domain Hackathon Participant (Certificate)
